Welcome to Newsletter #3

The XXXII Congress and Centennial of the International Society of Sugar Cane Technologists (ISSCT) will take place in Cali, Colombia, in 2025. This flagship event brings together experts, academics and leaders in the Sugarcane Agroindustry from around the globe. Organised by Tecnicaña, this congress will be a milestone in ISSCT's history, celebrating its centennial and offering a unique platform to exchange knowledge, innovations and best practices in Sugarcane production and its derivatives.

We expect to host hundreds of participants from diferents countries, who will find this event an ideal platform to contribute to the sustainable development of the global sugarcane agroindustry.

General Structure of the Congress

The 2025 ISSCT Congress will feature a diverse structure designed to address key areas of interest in Sugarcane research and technology. The structure will include the following phases:

1. Pre-Congress (22–23 August 2025)

Technical visits to selected sugarcane mills and the Investigation Center in the region, offering a first-hand look at Colombia's best agricultural and industrial practices.

MORE INFORMATION

Accompanying Programme

A special programme for accompanying persons will be available during the Pre-Congress and Congress. It includes cultural and tourist tours of the most iconic sites in Valle del Cauca and Eje Cafetero. These activities are designed to provide an unforgettable experience in one of Colombia's most vibrant regions.

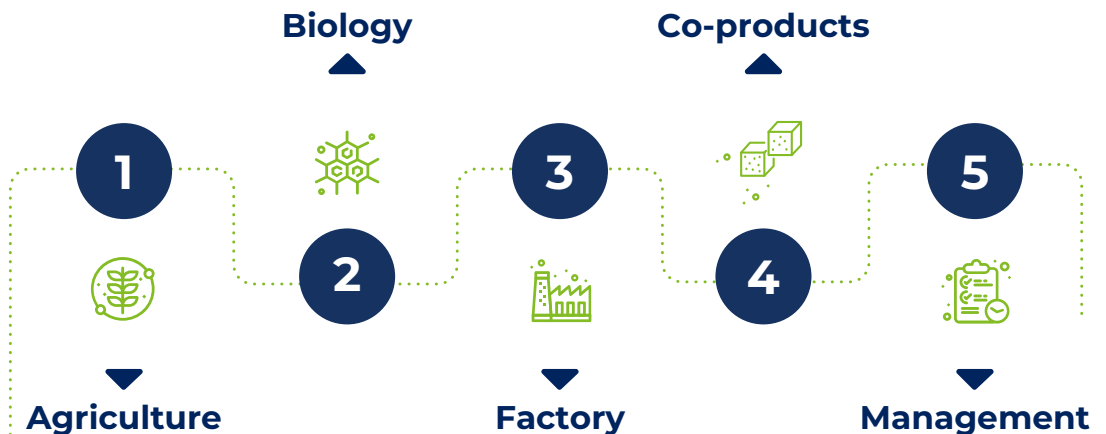

MORE INFORMATION

2. Congress (24–28 August 2025)

During five days, the Congress will include plenary sessions, paper presentations and poster sessions, addressing topics from the following commissions:

CONGRESS COMMISSIONS

EXPECTED ATTENDANCE

Trade Exhibition

This Congress is the ideal setting to connect with industry leaders, establish valuable partnerships, and strengthen your position as a strategic player in the Sugarcane Agroindustry.

Over 180 participating brands will showcase their latest innovations and solutions in an extensive trade exhibition.

MORE INFORMATION

3. Post-Congress (30–31 August 2025):

Following the main event, a technical tour will take place in Cartagena, Colombia, offering further insight into the sugarcane sector.

Tourist activities will also be available for those interested in exploring Colombia's rich culture and landscapes.

Congress Venue

The XXXII ISSCT Congress and Centennial will be held at the Valle del Pacífico Events Centre, an internationally recognised venue known for hosting major events. Located in Cali, this modern convention centre, which also hosted COP16, is the ideal place to welcome ISSCT attendees, offering all the technical and logistical requirements necessary for an event of this magnitude.

Abstracts of Papers and Presentations

As of 31 October 2024, the ISSCT had received 387 abstracts from around the world. This remarkable response highlights the relevance of the ISSCT Congress as a key meeting point for the scientific and technical community in the sector.

MORE INFORMATION

ISSCT Workshops

Eading up to the Congress, the ISSCT has conducted several successful workshops in different regions. These events have facilitated the sharing of practical knowledge to be applied during Congress sessions.

As part of the Congress, the Management Workshop will address "Anticipating Actions and Innovation for the Sustainability of the Sugarcane Agroindustry."
